GREENLAWN, LONG ISLAND, NEW YORK

Spring 1949 SPECIAL LIST OF ONLY MINIATURES AND SMALL FLOWERING VARIETIES

I am issuing this price list on the miniature and small flowering varieties in advance of my general catalog in order that you may place your order early for these very popular varieties. Interest in these small types is growing very rapidly and the supply is quite limited. I am only a small grower and as I will not buy bulbs for resale, but sell only those bulbs that I have grown in my own garden, therefore, my own supply is limited and on some varieties, very limited. I could have sold my entire stock of these at wholesale, but prefer to serve my retail customers first and, therefore, have turned down all wholesale requests.

Requests for this price list have been heavy, which shows the great interest there is in this type of gladiolus. I call attention to the fact that miniatures, as listed in the official classification for show purposes, comprises only those varieties in the 100 class and which are those varieties with florets measuring two and one-half inches and under.

I note that many catalogers are now making a separate listing of miniatures and under that heading, some are including not only the few they have in the 100 class but also those having the larger florets which are officially classified in the 200 class as "small" with florets up to three and one-quarter inches and some include under the miniature heading a few in the 300 class which are even larger, and are far from being what I would consider miniatures.

I, too, have listed in this sheet those that I have in the 200 class and I again call to your attention that only the 100 class are officially recognized as miniatures. For the most part the 200 class varieties which I have listed, have the small wiry stem like the miniatures but slightly larger florets.

Every bulb is hand planted, dug, cleaned and graded. All work is done by Mrs. Rogers and myself and you will find quality and service go with every

order. My general catalog listing some 300 varieties of the larger sizes will be ready some time in January. May I suggest that you wait for this and give my offerings careful consideration before placing any orders for the larger varieties. You will find my prices are right and that possibly you can afford some of the newer varieties that have been too high priced for you in the past.

But do not wait for this general list before ordering your miniatures and small flowering ones. Place your order for these now while selection is good and I will immediately put them aside for you and then you can add to this order after you have received the general catalog. The combined total of your orders will be considered as one order in determining the extras to be sent.

Bulblets from most of these small varieties germinate very well and when planted early and properly cared for produce many fine blooms, but I make no guarantee regarding this.

TERMS, PRICES AND SHIPMENT — On all orders for \$5.00, or less, cash with order — over \$5.00, 25% cash with order and balance before shipment. Minimum order \$2.50. I can not accept orders for less than the smallest unit quoted. For instance, where listed 2 for 30, one cannot be had for 15. Five bulbs can be had at the 10 rate and 50 bulblets at the 100 rate only when the price is \$1.00 or more per 100. Transportation to points within the United States will be prepaid when shipment is made at my option as to parcel post or express. Parcel post shipments cannot be made safely until spring but if shipment is desired before then, I will ship express immediately, charges collect, and include extras to help in paying such charges. As is the custom of all shippers, I will include extras anyway and in place of many complicated, discount offers, I will give additional overcount or extras depending on size of order when cash in full accompanies the order. You might suggest which you prefer. You may be sure these extras will fully cover these discounts and then some.

SUBSTITUTION — All stock offered subject to prior sale. Remember I sell only the bulbs I have grown myself and therefore supply is limited and on some varieties quite limited, so you should order early. I will not substitute either size or variety without you so direct and will refund immediately on any item I cannot supply. If you wish substitution, I would appreciate your second choice with your order.

GUARANTEE It is my intention to send out only good, clean, healthy bulbs and true to name. I make no guarantee as to growth and will in no way be responsible for the crop. If upon receipt of bulbs, you find them unsatisfactory, return at my expense and I will cheerfully refund the full purchase price. And furthermore if you later find any not true to name, I am ready to replace, refund, or make adjustment.

INSPECTION — My glads have been inspected and I hold Certificate No. 2602 issued by New York State Department of Agriculture and Markets.

NOTE — Keep this list for future reference as these varieties will not appear in my general catalog which will be mailed to you later.

		per	large 1 1/4" & up	medium 3/4"-1 1/4"	small under 3/4"	bulbets per 15-.25
